The text should be positioned near the edge of the mat (but within the safe copy area) on one side only.

## Proofs to be supplied

Supplying a hard copy proof is optional, however it is required when colour matching is important. Admedia is not responsible for any colour variations that may occur when a proof is not provided.

## Artwork format

The preferred format is a print ready PDF – please ensure that fonts are outlined/converted to paths and that colours are set as spot or CMYK process.
